

Why clean more...  
when you don't have to?

When it comes to cleaning your glass, the less time and effort spent, the better. That's why you need Clear-Fusion<sup>™</sup> Pro. Having Clear-Fusion Pro, one of the world's most advanced glass coatings, applied to your glass means:

- Less cleaning
- Protection from mildew, soap scum, scratches and more
- A more hygienic surface
- No need for harsh or harmful cleaning chemicals

## Save time & effort!

Clear-Fusion Pro offers the best value in a professionally-applied coating. When compared to competitive coatings on the market today, laboratory tests prove Clear-Fusion Pro outperforms even significantly more expensive products. Backed by a 10-year limited warranty, Clear-Fusion Pro resists hard water stains, soap scum and other contaminants that can permanently damage your glass. When a few spots do form, they are much easier to remove from Clear-Fusion Pro treated glass than glass left untreated. You're planning to install beautiful new glass... now be sure to protect it. Adding Clear-Fusion Pro protective nano-coating will help ensure your glass stays that way for years to come.

## It's Not Too Late

Seeing spots on your glass? Having a hard time getting those spots off? If you didn't initially purchase the Clear-Fusion Pro treatment with your glass, we offer products to restore, protect and maintain it in an easy do-it-yourself application.

CLEAR-FUSION PRO

## Limited 10-Year Warranty<sup>1</sup> for Clear-Fusion™ Pro Nano-Coating

Architectural glass protected with Clear-Fusion™ Pro Nano-Coating is guaranteed to remain more water repellent than untreated glass for 10-years as long as basic manufacturer maintenance recommendations are followed and no harsh or abrasive cleaners are used.

Diamon-Fusion International's Clear-Fusion™ Pro Nano-Coating chemically bonds to the glass and creates a protective nanofilm that when applied by trained professionals is guaranteed not to haze, chip, crack, peel, or yellow for the lifetime of the glass. In the event of a covered product failure, Diamon-Fusion International will provide materials necessary for retreatment. DFI's liability is limited to the cost of replacing DFI chemical materials and will in no way extend to indirect, incidental, or consequential damages incurred in relationship to this product.

Clear-Fusion™ Pro maintenance products, available from Diamon-Fusion International, will assure a clear and easy to clean surface for many years even after this warranty has expired. Ask your Diamon-Fusion International reseller about the Consumer Maintenance Kit and Express Care Kit, both are easy and complete systems for following manufacturer recommended maintenance and more.

### To Keep Your Warranty In Force

Protecting your glass with Clear-Fusion™ Pro is a wise investment that will reduce the time and effort you spend cleaning. While Clear-Fusion™ Pro dramatically reduces the cleaning requirements of your glass, just like the non-stick coating in a frying pan, you do have to perform some basic cleaning and maintenance to ensure on-going performance.

Following the maintenance instructions below will ensure many years of satisfaction. Use of the DFI Consumer Maintenance Kit or the DFI Express Care Kit can extend the life of the Clear-Fusion™ Pro coating and the glass it protects well beyond your 10-Year Warranty.

#### Basic Manufacturer Maintenance Recommendations to Maximize the Life and Benefit of Your Treated Surface:

**After each use:** Rinse or spray the surface with cool (for best results), clean water. Wipe it dry or let the water drain off and pat dry the few remaining droplets.

**Once a month:** Wet the surface and use a nylon body puff to go over the wet surface, rubbing in a circular motion. You should feel places that are "sticky" going back to slick again. Then rinse or spray the surface with cool, clean water just as you do after each use. Wipe it dry or let the water drain off, and pat dry the few remaining droplets.

#### If You Haven't Followed the Basic Manufacturer Maintenance Recommendations:

A DFI Consumer Maintenance Kit or DFI Express Care Kit can be used to restore your surface. These kits are available from Diamon-Fusion International resellers worldwide.

For your convenience, the DFI Consumer Maintenance Kit and the DFI Express Care Kit include everything you need to satisfy the Basic Manufacturer Maintenance Recommendations and more:

- Nylon Cleaning Puff – To wipe down the treated surface on a regular basis
- White Scrubber Pad – For use if the basic manufacturer maintenance has not been performed
- DFI Restoration Powder – Also for use when the basic manufacturer maintenance has not been performed
- DFI Revitalizer – This is used to bring back your DFI treated surfaces to "just applied" condition. It can also be used as a basic protective treatment for anodized aluminum frames and hardware, vinyls, and plastics
- Microfiber Towel – Used for polishing the glass after applying the Revitalizer

The DFI Consumer Maintenance Kit contains everything above including 16 ounces of Revitalizer; the DFI Express Care Kit simply has smaller quantities of Revitalizer and Restoration Powder.

<sup>1</sup> THE FOREGOING WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES OF ANY KIND INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. COMPANY SHALL NOT BE LIABLE FOR INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT. NOTE, SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS MIGHT NOT APPLY TO YOU. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND THE ORIGINAL PURCHASER MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE. COMPANY SHALL BE THE SOLE JUDGE AS TO WHETHER BASIC MANUFACTURER MAINTENANCE RECOMMENDATIONS HAVE BEEN FOLLOWED, AND IF IN COMPANY'S JUDGMENT THE PRODUCT FAILURE HAS ARISEN FROM IMPROPER MAINTENANCE OR FAILURE TO FOLLOW COMPANY'S RECOMMENDATIONS, THEN COMPANY SHALL BE RELEASED FROM ANY OBLIGATION OR LIABILITY UNDER THIS LIMITED WARRANTY.
